

Please adopt the appropriate rate and regulatory requirements to ensure full access and quality services to VRS. It helps me get interviews for jobs. I am now unemployed and almost impossible to get job interviews and now I can use VRS to set up appts. with Employers and I thank god for it, now Im hoping to get jobs and when employed this is will be a vital tool for me to stay on the team with other employees. The companies will find me "cost-free" or less expensive if VRS remained available to us. Currently, 70% of deaf people are UNEMPLOYED and this is SHAMEFUL statistics now and why is that? the companies do not want to hire us as it appears to me that we are "expenitures not revenues"> is that it?

This is very important that VRS remain open and get us all employed.

Research is very important, because sometimes we see choppy video while we use VRS. If we can get clear, smooth transmission, this would save us a lot of time because this would reduce unnecessary repetition and misunderstanding. Thanks.
